

Is there a way to bulk import my excess?

Yes there is. "Allow users to import from CSV" Registered users go to "Add New Listing" - "Import from CSV". By pressing the button you are taken to the import area. There you can specify a CSV file and a ZIP containing the images for the Listings in the CSV. The zip MUST not contain Folders or pictures in folders. Zip all images into one file. The CSV must be TAB delimited with NO HEADER ROW! The structure for the CSV MUST be the following (please keep the exact field order): For assistance contact admin1@easy-xs.com.
